

# Topic 3.1 Enzyme Structure

---

## Main Notes

Enzymes are biological catalysts.

- Shape determines function.
- Active site specificity.

## Keywords

Catalyst  
Substrate

Writing near the bottom of the page... If I add a margin note here, it used to cause an error.

**Note:** This note is at the very bottom!

# Topic 3.2 Cellular Respiration

---

## Glycolysis

Now you can see Topic 3.2! The previous margin note has been handled safely.
